

Quarter Face Polycarbonate Mirror - 3mm

Quarter Face Polycarbonate Mirror - 3mm

- The quarter dome should be corner mounted at right angle corners to provide 90° vision
- Widely used in hospital psychiatric wards, prisons and police stations
- Prevents surprise attacks or collisions
- Ensures staff, patient and inmate safety
- Shatterproof Polycarbonate face withstands repeated blows
- High heat resistance (240-degrees)
- Rigid steel frame bolts to wall and ceiling - preventing removal
- Vacuum metallised coating - Gives the brightest sharpest reflection
- Optional foam insert available (see fixing kits)
